LINE 510 - SERVICE QUALITY STANDARDS AND CONSUMER PROTECTION RULES COMPLIANCE

Blanca Telephone Company (“the Company”) complies with applicable service quality standards and consumer protection rules for its voice and broadband services.

The rates, terms, and conditions under which the Company operates are outlined in its local exchange tariff, which is approved by the Colorado Public Utilities Commission (“Colorado PUC”). The tariff contains provisions regarding the Company’s customer service and protection practices.

Service quality standards for voice service are established by the Colorado PUC. The Company consistently meets or exceeds those standards and provides reports to the Colorado PUC, in accordance with the Colorado PUC’s rules.

With regard to broadband service, the Company provisions its network and equipment to ensure that its customers can enjoy the speeds to which they subscribe. However, Internet speeds generally result from a “best effort” service and are dependent upon a number of variables, many of which are outside the control of the Company. The Company also complies with the FCC’s Open Internet rules, 47 C.F.R. §§8.3-8.11. These rules prohibit blocking, throttling, and paid prioritization, and also require the Company to publicly disclose information regarding its network management practices, performance, and the commercial terms of its broadband services.

The Company complies with any and all consumer protection obligations under state law.

The Company also complies with the following consumer best practices: (1) the Company discloses its rates and terms of service to customers; (2) the Company provides specific disclosures in its advertising; (3) the Company separately identifies carrier charges from taxes on its billing statements; (4) the Company provides ready access to customer service; (5) the Company promptly responds to consumer inquiries and complaints received from government agencies; and (6) the Company abides by policies for protection of consumer privacy.

Finally, the Company has a policy and established operating procedures that comply with the FCC’s Customer Proprietary Network Information (CPNI) rules (47 C.F.R. §§64.2001-64.2011).

LINE 610 - ABILITY TO FUNCTION IN EMERGENCY SITUATIONS

Blanca Telephone Company (“the Company”) is able to function in emergency situations for both voice and broadband service. A reasonable amount of back-up power is provided through a fixed generator and batteries that provide the Company with eight hours of emergency power. In addition, Blanca field electronics have eight hours of back-up power through the use of mobile generators and batteries.

The Company has a Packet Optical Transport fiber network and Packet based IP tunnels that will reroute traffic should a fiber cut occur. The Company’s staff is properly trained to respond to any outages in less than one hour. In addition, the Company has connectivity to the neighboring exchanges to pass traffic and also has connectivity to the LATA tandem which further provides capabilities for rerouting traffic. Lastly, the Company is prepared and capable of managing traffic spikes resulting from emergency situations and has developed procedures for employees to follow during emergency situations.

LINE 1010 – VOICE SERVICES RATE COMPARABILITY

The Wireline Competition Bureau’s 2017 reasonable comparability benchmark for voice services is \$49.51, which includes the federal subscriber line charge (“SLC”).¹

In all of the exchanges served by Blanca Telephone Company (“the Company”), the single-line residential local rate in effect as of January 1, 2017 was \$18.00. When the federal SLC (\$6.50) is included, the total rate was \$24.50. Therefore, the Company’s pricing of fixed voice services is less than the reasonable comparability benchmark of \$49.51.

¹ *Wireline Competition Bureau Announces Results of 2017 Urban Rate Survey for Fixed Voice and Broadband Services, Posting of Survey Data and Explanatory Notes, and Required Minimum Usage Allowance for ETCs Subject to Broadband Public Interest Obligations*, Public Notice, WC Docket No. 10-90, 32 FCC Rcd 1358 (2017).

LINE 1030 – BROADBAND SERVICES RATE COMPARABILITY

As of January 1, 2017, Blanca Telephone Company was charging a residential rate of \$49.99 for broadband providing 10 Mbps download, 1 Mbps upload, and an unlimited usage allowance. This rate is lower than \$77.98, which is the 2017 reasonable comparability benchmark for the same offering established by the Wireline Competition Bureau.¹

LINE 1210 – TERMS & CONDITIONS OF VOICE TELEPHONY LIFELINE PLANS

Residential customers of Blanca Telephone Company (“the Company”) who qualify for the Lifeline Program receive a federal discount of \$9.25 on local voice telephony service.

In all of the Company’s exchanges, the Lifeline single-line residential rate, including any mandatory extended area service charge and the federal subscriber line charge (“SLC”), is \$15.25 (\$24.50 standard rate - \$9.25 discount).

All single-line residential customers, including Lifeline customers, have an unlimited number of minutes for calls made within their local calling area.

Toll charges for calls outside of the local calling area are determined by the long distance carrier of the customer’s choosing. Customers may elect to subscribe to toll blocking at no charge.

Lifeline Program reductions do not apply to additional services such as custom calling features. Lifeline customers may subscribe to these services, where available, at the same rates offered to other customers.

Lifeline customers may subscribe to any residential voice telephony service package that is generally available to the public and will receive \$9.25 off the regular price of the package.

Additional information regarding the terms and conditions of voice telephony Lifeline plans can be found at <https://blancatelephone.com/2017/01/01/lifeline-telephone-assistance-program/>.

LINE 3010 – CERTIFICATION OF PUBLIC INTEREST OBLIGATIONS

Blanca Telephone Company (“the Company”) hereby certifies that the Company has taken reasonable steps to provide upon reasonable request broadband service at actual speeds of at least 10 Mbps downstream/1 Mbps upstream, with latency suitable for real-time applications, including Voice over Internet Protocol, and usage capacity that is reasonably comparable to comparable offerings in urban areas, and that requests for such service were met within a reasonable amount of time.

To the Board of Directors
Blanca Telephone Company
Alamosa, Colorado

As part of our audit of the consolidated financial statements of Blanca Telephone Company, as of and for the year ended December 31, 2016, we wish to communicate the following to you.

Auditor's Responsibility Under Auditing Standards Generally Accepted in the United States of America

An audit performed in accordance with auditing standards generally accepted in the United States of America is designed to obtain reasonable, rather than absolute, assurance about the financial statements. In performing auditing procedures, we establish scopes of audit tests in relation to the financial statements taken as a whole. Our engagement does not include a detailed audit of every transaction. Our engagement letter more specifically describes our responsibilities.

These standards require communication of significant matters related to the financial statement audit that are relevant to the responsibilities of those charged with governance in overseeing the financial reporting process. Such matters are communicated in the remainder of this letter or have previously been communicated during other phases of the audit. The standards do not require the auditor to design procedures for the purpose of identifying other matters to be communicated with those charged with governance.

An audit of the financial statements does not relieve management or those charged with governance of their responsibilities. Our engagement letter more specifically describes your responsibilities.
